ABOUT

CM MECHANICAL SERVICES LTD

CM Mechanical Services Ltd has been established as a family-run business in 2007, set up by the managing director Chris Makepeace. Originally specialising in mobile plant repair but rapidly expanded into welding, line boring and haulage.

CM Mechanical Services Ltd is based in Dinnington South Yorkshire with easy access to the M1. Our fleet has a wide range of vehicles capable of supporting all areas of the heavy haulage industry. Our complement of vehicles is able to transport all types of abnormal loads and also has an escorting specialist.

LOW LOADER HIRE / ABNORMAL LOAD TRANSPORT

CMMS Transport Services are based in Sheffield and supply both a low-loader or abnormal load transport across the UK that supports our customers with this requirement for a wide variety of sectors and projects.

Most firms dealing with industrial equipment and heavy machinery take advantage of low loader hire for convenient and efficient transportation. Low loaders are also suitable to transport all the machinery associated with wind power plants, such as generators; tower segments; turbine blades; hybrid towers and rotor blades.

Our low loader and beavertail wagons are available for hire to transport all types of machinery up to 25 tonnes. No job is too small! With various sizes of trailers and wagons, along with our excellent, experienced drivers, we can move a wide range of plant, including multiple machines in a single movement. Items of machinery we can move include:- **Paving Machines / Excavators / Dumpers / Dump Trucks / Rollers / Tractors / Agricultural Machinery**

**Unit B1, Blyth Road, Harworth Business
Park, Harworth DN11 8DB**

**Office: 01909 517879
